Soweto, South Africa 26.01.2017

Good Morning and Greetings from Soweto, South Africa

Latest News from our INCLUSIVE CHICKEN FARM MACUBENI:

It's quite a while that you received some news about the progress in the development of our INCLUSIVE CHICKEN FARM MACUBENI.

Our second cycle was successfully completed and 280 Chicken were sold!!! We reduced the mortality rate from 39 Chicken to 20 Chicken and we are proud of our Staff Members in Macubeni.

Let me start with a few achievements of this amazing project and partnership between Evonik Industries and Utho Ngathi Disability Projects.

The INCLUSIVE CHICKEN FARM MACUBENI has many different benefits for community members of Macubeni and the staff members for this project. Most important for us is the long term benefit for Children with disabilities. We are grateful that through the funding efforts of Evonik Industries and Utho Ngathi Disability Projects we have received 4 specialized wheelchairs for Children with severe Disabilities in Macubeni. We visited the children with Mr Ruth (Evonik Industries) and his Wife and positioned the children in their new wheelchairs. The children in the age between 8 years and 10 years never even had the chance to leave their beds or little corner in their homes; now they are developing and experience Inclusion as a reality for their young lives.

We are also proud that through the sales of the 280 chicken we were able to give a small stipend to 10 members of the Inclusive Chicken Farm Macubeni and in addition to 5 Home based carers of Utho Ngathi who walk long distances from Voillae to vilklage visiting persons with disabilities; giving them hope, love and care in their often very difficult lives in poverty stricken communities of Macubeni

We need your continuous support and we can assure you that this project will grow even further for the benefits of persons with disabilities and other community members of the villages of Macubeni.

The photos below clearly show the comfort of the new wheelchair and the happiness of Masauso Phiri from Utho Ngathi Disability Projects, Staff members of the Inclusive Chicken Farm Macubeni and THE CHICKEN!!!

Sanelise, an 8 year old child, he was on bed all his life. Now Sanelise received a specialized wheelchair and through better seating the young man will develop with less health complications.
